available features

**SUITABLE FOR TABLETS AND SMARTPHONES**

Create your own catalogue using your own product selection.

You can personalise it by giving it a project name and description, by choosing the order for the products to appear and by adding lifestyle images.

This catalogue will then be available in Word, PDF and Excel formats.

**CREATE A PERSONALISED CATALOGUE**

**BIM: DELABIE’S CORE PRODUCTS ARE NOW AVAILABLE**

To meet the requirements of BIM technology, DELABIE has modelled its core products.

Available in 3 formats - REVIT, IFC and ARCHICAD, the files can be downloaded via the relevant product data sheet or via datashare.

The list of references available in BIM format is available in Our Services - BIM Files.

**TRENDS THE MAGAZINE: THE DESIGN TRENDS TAB**

Browse the “Trends by DELABIE” magazine intended for those who are passionate about Design and the art of the “Beautiful”.

Discover the 4 universes of “Trends” with major international projects, specification trends as well as interviews with prominent designers and architects who talk about their projects and their passions.

**BOB HD hand washbasin**
Wall-mounted with concealed drainage

- Wall-mounted hand washbasin.
- Basin internal diameter: 310mm.
- Bacteriostatic 304 stainless steel.
- Stainless steel thickness: 1.2mm.
- Rounded edges prevent injury.
- Vandal-resistant: shrouded basin, concealed trap, and reinforced mounting frame.
- Quick and easy to install from the front thanks to a stainless steel mounting frame.
- Supplied with 1½” waste and trap.
- Without overflow.
- Supplied with fixing elements.
- CE marked. Complies with European standard EN 14688.
- Weight: 5.5 kg.
- 10-year warranty.

For taps see the DELABIE catalogue "Water Controls for Public and Commercial Places" (DOC 609INT).

**BOB TC hand washbasin**
Wall-mounted with concealed drainage

- Wall-mounted hand washbasin, cross wall installation for service ducts.
- Basin internal diameter: 310mm.
- Bacteriostatic 304 stainless steel.
- Stainless steel thickness: 1.2mm.
- Rounded edges prevent injury.
- Vandal-resistant: shrouded basin, concealed trap.
- 200mm threaded rod can be cut to size (other lengths available on request).
- Recessed horizontal waste outlet Ø 32mm.
- Flat perforated waste, without screws: easy to clean and vandal-resistant.
- Without overflow.
- Supplied with fixing elements.
- CE marked. Complies with European standard EN 14688.
- Weight: 5.5 kg.
- 10-year warranty.

For taps see the DELABIE catalogue "Water Controls for Public and Commercial Places" (DOC 609INT).
Vandal-resistant washbasins / DELABIE

PMR XS TC hand washbasin
Wall-mounted for disabled people

• Wall-mounted hand washbasin, cross wall installation for service ducts.
• Basin internal diameter: 310mm.
• Bacteriostatic 304 stainless steel.
• Stainless steel thickness: 1.2mm.
• Rounded edges prevent injury.
• Vandal-resistant: shrouded basin, concealed trap.
• 200mm threaded rod can be cut to size (other lengths available on request).
• Recessed horizontal waste outlet Ø 32mm.
• Flat perforated waste, without screws: easy to clean and vandal-resistant.
• Without overflow.
• Supplied with fixing elements.
• CE marked. Complies with European standard EN 14688.
• Weight: 4.5kg.
• 10-year warranty.

For taps see the DELABIE catalogue “Water Controls for Public and Commercial Places” (DOC 609INT).

DUO S TC washbasin
Wall-mounted with concealed drainage

• Wall-mounted hand washbasin, cross wall installation for service ducts.
• Integrated countertop.
• 2 models available: right hand basin or left hand basin.
• Basin internal diameter: 310mm.
• Bacteriostatic 304 stainless steel.
• Stainless steel thickness: 1.2mm.
• Rounded edges prevent injury.
• Vandal-resistant: shrouded basin, concealed trap.
• 200mm threaded rod can be cut to size (other lengths available on request).
• Recessed horizontal waste outlet Ø 1".
• Flat perforated waste, without screws: easy to clean and vandal-resistant.
• Without overflow.
• Supplied with fixing elements.
• CE marked. Complies with European standard EN 14688.
• Weight: 8.5kg.
• 10-year warranty.

For taps see the DELABIE catalogue “Water Controls for Public and Commercial Places” (DOC 609INT).
COMMISSARIAT hand washbasin
Recessed

- Recessed hand washbasin, cross wall installation for service ducts.
- Interior basin dimensions: 290 x 290 x 350mm.
- Bacteriostatic 304 stainless steel.
- Stainless steel thickness: 2mm.
- Rounded edges prevent injury.
- Suitable for prisons, police stations, etc.
- Vandal-resistant: water inlet and outlet cannot be accessed by user.
- Supplied without water controls.
- Recommended electronic control: ref. 447100.
- Weight: 12.5kg.
- 10-year warranty.

TEK TC washbasin
Concealed drainage and integrated tap

- Wall-mounted washbasin, cross wall installation for service ducts.
- Bacteriostatic 304 stainless steel.
- Stainless steel thickness: 1.2mm.
- Rounded edges prevent injury.
- Vandal-resistant: shrouded basin, concealed trap.
- 200mm threaded rod can be cut to size (other lengths available on request).
- Supplied with 1 time flow tap: stainless steel tamperproof push-button and anti-blocking system, 7-second time flow.
- Recessed horizontal waste outlet Ø 32mm.
- Flat perforated waste, without screws: easy to clean and vandal-resistant.
- Without overflow.
- Supplied with fixing elements.
- CE marked. Complies with European standard EN 14688.
- Weight: 9kg.
- 10-year warranty.
TEK washbasins
Concealed drainage and integrated tap

- Wall-mounted washbasin.
- Bacteriostatic 304 stainless steel.
- Stainless steel thickness: 1.2mm.
- Rounded edges prevent injury.
- Vandal-resistant: shrouded basin, concealed trap.
- Supplied with 1 time flow tap: stainless steel tamperproof push-button and anti-blocking system, 7-second time flow.
- Available with 2 buttons cold/mixed water.
- Flat perforated waste, without screws: easy to clean and vandal-resistant.
- Without overflow.
- Supplied with trap.
- Supplied with fixing elements.
- CE marked. Complies with European standard EN 14688.
- Weight: 8.6kg.
- 10-year warranty.

TEK washbasin
Concealed drainage and integrated electronic tap

- Wall-mounted washbasin.
- Bacteriostatic 304 stainless steel.
- Stainless steel thickness: 1.2mm.
- Rounded edges prevent injury.
- Vandal-resistant: shrouded basin, concealed trap.
- Supplied with 1 electronic tap: flow rate pre-set at 3 lpm, infrared presence detection, adjustable duty flush, 230/12V mains supply.
- Flat perforated waste, without screws: easy to clean and vandal-resistant.
- Without overflow.
- Supplied with trap.
- Supplied with fixing elements.
- CE marked. Complies with European standard EN 14688.
- Weight: 8.3kg.
- 10-year warranty.
S21 S TC and 700 S TC WC pans

Wall-hung

• Wall-hung WC pan, cross wall installation for service ducts.
• Available with 700mm elongated pan for improved comfort for people with reduced mobility (700 S TC).
• Bacteriostatic 304 stainless steel. Stainless steel thickness: 1.5mm.
• One-piece, pressed WC bowl, seam-free for easy maintenance and better hygiene.
• WC bowl surface is polished with rounded edges for easy cleaning.
• Concealed perimetral flushing rim.
• Horizontal water inlet: Ø 55mm.
• Horizontal waste outlet: Ø 100mm.
• Water saving: works with 4L or more of water.
• 200mm threaded rod can be cut to size (other lengths available on request).
• CE marked. Complies with European standard EN 997 for 4L flush.
• Weight: 11kg for the S21 S TC model; 16.5kg for the 700 S TC model.
• 10-year warranty.

For flush valves see the DELABIE catalogue “Water Controls for Public and Commercial Places” (DOC 609 INT).

Wall-hung S21 S TC WC pan
Polished satin 304 stainless steel

Wall-hung 700 S TC WC pan for people with reduced mobility
Polished satin 304 stainless steel

S21 P TC WC pan
Floor-standing

• Floor-standing WC pan, cross wall installation for service ducts.
• Bacteriostatic 304 stainless steel.
• Stainless steel thickness: 1.5mm.
• One-piece, pressed WC bowl, seam-free for easy maintenance and better hygiene.
• WC bowl surface is polished with rounded edges for easy cleaning.
• Concealed perimetral flushing rim.
• Horizontal water inlet: Ø 55mm.
• Horizontal waste outlet: Ø 100mm.
• Water saving: works with 4L or more of water.
• 200mm threaded rod can be cut to size (other lengths available on request).
• CE marked. Complies with European standard EN 997 for 4L flush.
• Weight: 13.5kg.
• 10-year warranty.

For flush valves see the DELABIE catalogue “Water Controls for Public and Commercial Places” (DOC 609 INT).

Floor-standing S21 P TC WC pan
Polished satin 304 stainless steel
**SHA 700 squat WC pan**

**Recessed**

- Floor-recessed squat WC pan.
- Bacteriostatic 304 stainless steel.
- Stainless steel thickness 1.2mm.
- One-piece pressed WC bowl, seam-free for easy maintenance and better hygiene.
- Bowl shape suitable for male and female use.
- Non-slip foot area.
- Waste outlet: Ø 100mm.
- Flushing system with one 304 stainless steel spreader.
- Supplied with stainless steel trap welded to squat WC pan (depending on the model).
- Weight: 6kg for the model without a trap; 8kg for the model with a trap.
- 10-year warranty.

*For flush valves see the DELABIE catalogue “Water Controls for Public and Commercial Places” (DOC 609INT).*

DELABIE / Vandal-resistant urinals

DELTA HD urinal
Rimless

• Wall-hung individual rimless urinal.
• Compatible with all standard frame systems on the market.
• Bacteriostatic 304 stainless steel. Stainless steel thickness: 1.2mm.
• Rear (recessed) water inlet.
• Vandal-resistant: recessed waste outlet, concealed trap, and reinforced mounting frame.
• Quick and easy to install from the front thanks to a stainless steel mounting frame.
• Supplied with 1½" P trap, fixing elements and theft prevention TORX security screws.
• CE marked. Complies with European standard EN 13407 for 2L flush.
• Weight: 7.5kg.
• 10-year warranty.

For urinal valves see the DELABIE catalogue "Water Controls for Public and Commercial Places" (DOC 609INT).

DELTA TC urinal
Rimless

• Wall-hung individual rimless urinal, cross wall installation for service ducts.
• Bacteriostatic 304 stainless steel. Stainless steel thickness: 1.2mm.
• Rear (recessed) water inlet.
• Vandal-resistant: recessed waste outlet, concealed trap, and reinforced mounting frame.
• Quick and easy to install from the front thanks to a stainless steel mounting frame.
• Supplied with fixing elements.
• CE marked. Complies with European standard EN 13407 for 2L flush.
• Weight: 8kg.
• 10-year warranty.

For urinal valves see the DELABIE catalogue "Water Controls for Public and Commercial Places" (DOC 609INT).
L urinal
Recessed - 1 to 3 services

- Trough urinal for recessing in the floor.
- Bacteriostatic 304 stainless steel. Stainless steel thickness: 1.2mm.
- Rear water inlet.
- Supplied with 1 stainless steel rinser and 1 flexible hose for the 600mm model; 2 stainless steel rinsers and 2 flexible hoses for the 1,200mm model; 3 stainless steel rinsers and 3 flexible hoses for the 1,800mm model.
- Water saving: optimal rinsing with 0.1 L/Sec. per service i.e. 0.3L per use.
- Central drainage.
- Waste outlet 1½". Supplied with waste and integrated trap (ref. 78500).
- Weight: 16.8kg for the 600mm model; 25.4kg for the 1,200mm model; 34kg for the 1,800mm model.
- 10-year warranty.

For valves, see recommendations for trough urinals on page 59.

DELABIE / Wall-mounted disposal sinks

Cleaners’ sink with upstand
Wall-mounted

- Wall-mounted cleaners’ sink with splashback.
- Bacteriostatic 304 stainless steel. Stainless steel thickness: 0.9mm.
- Seam-free, pressed bowl.
- Deep sink.
- Smooth surface. Rounded edges prevent injury.
- Supplied with 1½" waste. Without overflow.
- Supplied with fixing elements and splashback.
- Option to add a stainless steel hinged, lift-up grid.
- Weight: 4.6kg. 10-year warranty.

For taps see the DELABIE “Water Controls for Healthcare Facilities and Retirement Homes” (DOC 900INT) and “Water Controls for Professional Catering” (DOC 200INT) catalogues.

Disposal sink
Wall-mounted

- Wall-mounted disposal sink.
- Bacteriostatic 304 stainless steel.
- Stainless steel thickness: 1.2mm.
- Smooth surface for easy cleaning.
- Hinged stainless steel bucket grid.
- Supplied with 1¼" waste.
- Without overflow.
- Supplied with fixing elements.
- Weight: 5.1kg.
- 10-year warranty.

A wall-mounted tap is recommended; see the DELABIE “Water Controls for Healthcare Facilities and Retirement Homes” (DOC 900INT) and “Water Controls for Professional Catering” (DOC 200INT) catalogues.

Disposal sink
Floor-standing

- Floor-standing disposal sink.
- Bacteriostatic 304 stainless steel. Stainless steel thickness: 1mm.
- One-piece pressed bowl, seam-free.
- Smooth surface for easy cleaning.
- Adjustable feet height up to 40mm.
- Supplied with 1 ½" waste. Without overflow.
- Hinged stainless steel bucket grid.
- Weight: 10.6kg.
- 10-year warranty.

A wall-mounted tap is recommended: see the DELABIE “Water Controls for Healthcare Facilities and Retirement Homes” (DOC 900INT) and “Water Controls for Professional Catering” (DOC 200INT) catalogues.

XL S and XL P disposal sink
Wall-mounted or floor-standing

- Wall-mounted or floor-standing disposal sink.
- Bacteriostatic 304 stainless steel. Stainless steel thickness: 1.5mm.
- Smooth surface for easy cleaning.
- Concealed perimetral flushing system.
- Horizontal or vertical water inlet Ø 55mm.
- Horizontal or vertical water outlet Ø 100mm depending on model.
- Concealed drainage: shrouded sink.
- Quick and easy to install: from the front thanks to a stainless steel mounting frame or 2 access panels with theft prevention TORX security screws depending on the model.
- Hinged stainless steel bucket grid.
- Weight: 15kg for wall-mounted model (XL S); 16kg for floor-standing model (XL P). 10-year warranty.

For flush valves see the DELABIE catalogue “Water Controls for Public and Commercial Places” (DOC 609INT).
**DELABIE / Janitorial unit - Plaster sink**

**Janitorial unit**

*Floor-standing*

- Floor-standing janitorial unit.
- Complies with the former HTM64 guidance and new Health Building Note 00-10: Part C - Sanitary Assemblies (JU).
- Bacteriostatic 304 stainless steel. Stainless steel thickness: 1mm.
- Smooth surface for easy cleaning.
- Adjustable feet height up to 25mm. Hinged stainless steel bucket grid.
- Easy to maintain: access panel at the front.
- Supplied with 1¼" waste for the basin and 1½" waste for the disposal sink.
- Without overflow.
- We recommend the WRAS approved mixer: ref. G66452.
- CE marked. Complies with European standard EN 14688.
- Weight: 22kg. 10-year warranty.

A swivelling tap is recommended: see the DELABIE "Water Controls for Healthcare Facilities and Retirement Homes" (DOC 900INT) and "Water Controls for Professional Catering" (DOC 200INT) catalogues.

**Plaster sink**

*Wall-mounted*

- Wall-mounted plaster sink.
- Complies with the former HTM64 guidance and new Health Building Note 00-10: Part C - Sanitary Assemblies (PS H).
- Bacteriostatic 304 stainless steel.
- Stainless steel thickness: 1.5mm.
- Smooth surface and flat edges for easy cleaning.
- Suitable for hospitals, other healthcare establishments and leisure centres.
- Supplied with removable plaster basket with lid to filter plaster debris.
- Can be installed in 2 ways: bowl on the right or bowl on the left.
- Waste outlet 1½".
- Supplied with fixing elements.
- Weight: 17kg.
- 10-year warranty.

For taps see the DELABIE catalogue "Water Controls for Healthcare Facilities and Retirement Homes" (DOC 900INT).

88 Professional equipment
SXS mechanical hand washbasin
Knee-operated

• Wall-mounted, knee-operated hand washbasin.
• Bacteriostatic 304 stainless steel.
• Stainless steel thickness: 0.8mm.
• Rounded edges prevent injury.
• Available with or without splashback.
• Bare model (without tap) or complete model (with tap and premixer).
• Complete model consists of: swan neck spout, soft-touch time flow tap with 7-second time flow and a premixer with non-return valves.
• Flat perforated waste, without screws: easy to clean and vandal-resistant.
• Maximum hygiene: no manual contact with tap.
• Without overflow.
• Supplied with fixing elements.
• CE marked. Complies with European standard EN 14688.
• Weight: 4.3kg.
• 10-year warranty.

SXS electronic hand washbasin
Electronic control

• Wall-mounted hand washbasin with electronic control.
• Bacteriostatic 304 stainless steel.
• Stainless steel thickness: 1.2mm.
• Rounded edges prevent injury.
• Available with or without splashback.
• 184310 and 184320 references are supplied with an electronic mixer with integrated battery and solenoid valve and a chrome-plated brass soap or hydroalcoholic gel dispenser.
• 18431015 and 18432015 references are supplied with a WRAS approved electronic tap with integrated battery and solenoid valve, a TMV3 and WRAS approved thermostatic mixing valve and a chrome-plated brass soap or hydroalcoholic gel dispenser.
• Supplied with 1/4" waste. Without overflow.
• Water savings: flow rate pre-set at 3 lpm.
• Maximum hygiene: no manual contact with tap, reduced-stagnation solenoid valve, duty flush prevents bacterial development.
• Supplied with fixing elements.
• CE marked. Complies with European standard EN 14688.
• Weight: 4.1kg.
• 10-year warranty.

FRAJU PMR washbasin
Wall-mounted

- Wall-mounted washbasin, 620 x 505mm.
- Bacteriostatic 304 stainless steel.
- Stainless steel thickness: 1.2mm for the bowl and 1.5mm for surround.
- Rounded edges prevent injury.
- Supplied with 1 1/4" waste.
- Without overflow.
- Supplied with fixing elements.
- CE marked. Complies with European standard EN 14688.
- Weight: 5kg.
- 10-year warranty.

For taps and accessories see the DELABIE "Water Controls for Healthcare Facilities and Retirement Homes" (DOC 900INT) and "Accessibility and Accessories" (DOC 950INT) catalogues.

MINERALCAST PMR washbasin
Wall-mounted

- Wall-mounted washbasin, 786 x 545 x 170mm.
- With integral side grips which can be used as a support or a towel holder.
- MINERALCAST: composite material consisting of natural minerals and polyester resin.
- Shallow washbasin.
- Uniform, non-porous surface is easy to clean.
- One-piece cast washbasin, seam-free, for easy maintenance and better hygiene.
- Warm to the touch.
- Without overflow.
- Supplied with fixing elements.
- White, RAL 9016.
- CE marked. Complies with European standard EN 14688.
- Weight: 21.5kg.
- 10-year warranty.

For taps and accessories see the DELABIE "Water Controls for Healthcare Facilities and Retirement Homes" (DOC 900INT) and "Accessibility and Accessories" (DOC 950INT) catalogues.
DELABIE / Accessibility solutions - WC

700 S, 700 P and 700 S TC WC pans
Wall-hung or floor-standing

- 700mm elongated pan for improved comfort.
- WC wall-hung model (700 S); floor-standing model (700 P) and WC wall-hung model for cross wall installation in service ducts (700 S TC).
- Bacteriostatic 304 stainless steel. Stainless steel thickness: 1.5mm.
- One-piece pressed WC bowl, seam-free for easy maintenance and better hygiene.
- WC bowl surface is polished with rounded edges for easy cleaning.
- Concealed perimetral flushing rim.
- Horizontal water inlet: Ø 55mm.
- Horizontal waste outlet: Ø 100mm.
- Water saving: works with 4L or more of water.
- CE marked. Complies with European standard EN 997 for 4L flush.
- Weight: 14.5kg for the 700 S model; 15kg for the 700 P model; 16.5kg for the 700 S TC model.
- 10-year warranty.

For flush valves and accessories see the DELABIE "Water Controls for Public and Commercial Places" (DOC 609INT) and "Accessibility and Accessories" (DOC 950INT) catalogues.

MONOBLOCO 700 PMR WC pan
With cistern

- Floor-standing WC pan with dual flush cistern 3L/6L.
- 700mm elongated pan for improved comfort.
- Bacteriostatic 304 stainless steel. Stainless steel thickness: 1.5mm.
- One-piece pressed WC bowl, seam-free for better hygiene.
- WC bowl surface is polished with rounded edges for easy cleaning.
- Concealed perimetral flushing rim. Water supply can be recessed from below or exposed from the side (right/left).

REFERENCE INDEX
106
THE DAYS OF SMELLY LATRINES AND REPULSIVE SANITARY FACILITIES ARE GONE!

Users' needs have changed. Even if cleanliness is fundamental, comfort and aesthetics also play an important role in upholding the facility manager’s or owner’s image.

Stainless steel is a prestigious, high quality material, shown at its best in the design of DELABIE’s sanitary ware. A toilet, hand washbasin or urinal made from DELABIE’s stainless steel have become key architectural elements for sanitary facilities.
THE FIGHT AGAINST VOLUNTARY OR INVOLUNTARY VANDALISM

Stainless steel is a highly resistant and durable material.

DELABIE’s stainless steel sanitary ware will withstand heavy loads, abrasions, scratches and chemical products.

In areas requiring secure installations (e.g. prisons), cross wall options are ideal since the components and fixing elements cannot be accessed by the user.
ENVIRONMENTALLY FRIENDLY

Stainless steel is 100% recyclable, contributing to sustainable development and protecting the environment. DELABIE’s stainless steel sanitary ware contains 60% recycled stainless steel.

DELABIE’s stainless steel sanitary ware requires less energy to manufacture due to the use of advanced technologies (cold pressing, TIG and laser welding).

Lighter than ceramic, their transportation consumes fewer resources.
STAINLESS STEEL, ESSENTIAL FOR HYGIENE

The aseptic qualities of stainless steel have been regularly proven. Stainless steel is bacteriostatic: bacterial retention after cleaning is extremely low, up to 20 times less than for other materials such as glass or plastic.

A thin, invisible protective layer forms continuously when in contact with air or water. If the surface is damaged mechanically, the stainless steel is protected against corrosion.

Particular attention has been paid to designing sanitary ware with limited assembly and reduced numbers of seams to avoid dirt deposits and bacterial niches, and therefore to facilitate cleaning.
SANITARY APPLIANCES CERTIFICATION

What is the CE mark?
The CE mark is a mandatory European marking for all products subject to one or more European Directives. It indicates that the products comply with the essential requirements regarding safety, public health and consumer protection. It gives the products the right of free movement throughout the European Union.

In order to mark its products with the CE mark, a manufacturer must carry out, or have carried out on its behalf, checks and tests which ensure that the product complies with the essential requirements set out in the relevant Directives.

Which sanitary appliances carry the CE mark?

<table>
<thead>
<tr>
<th>European Standard</th>
<th>Product family</th>
</tr>
</thead>
<tbody>
<tr>
<td>EN 14688</td>
<td>Washbasins</td>
</tr>
<tr>
<td>EN 14296</td>
<td>Communal wash troughs and surgical scrub-up troughs</td>
</tr>
<tr>
<td>EN 997</td>
<td>WC pans and close coupled WCs with an integral trap</td>
</tr>
<tr>
<td>EN 13407</td>
<td>Wall-hung urinals</td>
</tr>
<tr>
<td>EN 14527</td>
<td>Shower trays</td>
</tr>
</tbody>
</table>

How do you recognise a CE marked product?
The CE mark is normally displayed on the product or, if not, on the packaging or accompanying documents. The manufacturer must draw up a CE declaration of conformity (declaration of performance). In the document the manufacturer states that the product complies with the "essential health and safety requirements" that apply to the product and for which the manufacturer assumes responsibility. All the CE declarations of conformity (declarations of performance) are available online at www.delabie.com.

What does the CE mark provide for sanitary appliances?
The CE mark guarantees the performance and safety of sanitary appliances for normal use, in particular in terms of hygiene, efficiency and reliability.

The main elements tested, depending on the type of sanitary appliance, are:
- resistance to loads (150kg for washbasins, 400kg for WCs, 100kg for urinals);
- the evacuation of water with no stagnation (washbasins, shower trays);
- resistance to water temperature variations;
- resistance to chemical products and cleaning products (acetic acid, sodium hydroxide, ethanol, sodium hypochlorite, methylene blue, sodium chloride);
- resistance to scratching and abrasion;
- optimal pan rinsing (WCs and urinals);
- the effective evacuation of residues for WCs (tests with toilet paper and plastic balls);
- no splashing, or splashing outside the toilet bowl (WCs, urinals).

MAINTENANCE ADVICE

Stainless steel is easy to clean and is very durable over the long term.

When stainless steel comes into contact with certain chemical substances or with inappropriate cleaning agents, there is a possible risk of staining or discoloration.

In order to guarantee the stainless steel’s properties against corrosion, it is essential to always keep the surface clean.

For everyday cleaning, we recommend following the instructions below:
- use mild soapy water;
- rinse thoroughly with clean water;
- dry with a soft and clean cloth.

Never use abrasive products, scouring powder, bleaching products such as bleach or any other chlorine, acid or alcohol-based products.

If the product comes into contact with any of these, rinse thoroughly with clean water.

* Hand washbasins: washbasins less than 530mm in width, designed only for hand washing *(source: European standard EN 14688)*.

* PRM: People with reduced mobility = People that experience trouble moving around, either temporarily or permanently. For example: the sensory impaired and people suffering from a mental illness, people in wheelchairs, people missing limbs, people of short stature, the elderly, pregnant women, people carrying heavy luggage and people with children (including children in pushchairs).

For more information on the installation of sanitary areas for people with reduced mobility please consult the Space guide found in the DELABIE "Accessibility and Accessories* catalogue (DOC 950INT).

References prefixed by * are available while stocks last. References are listed in ascending alphanumerical order.
The general terms and conditions are valid for all customers.

ORDERING AND QUOTATIONS:
These will be processed in order of receipt. We do not accept pre-orders or orders for call-off. Individual adjustments of quantities and conditions of sale and customers waive any claim that may arise from changes in their own documentation which may occur.

The customer agrees to these terms from the moment that we receive the order, which cannot be cancelled. Orders are accepted without obligation to deliver the order in full in one delivery.

Our commercial representatives are not authorised to make any oral or written undertakings or to sign undertakings, guarantees beyond those provided in the written contract. In the event of default or delayed payment, the Company will be entitled to suspend deliveries or cancel existing orders without any claim for damages from the customer.

In the event of a change in circumstances in the buyer, we reserve the right to cancel existing orders or to demand payment guarantees.

Our quotes do not amount to specifications; specifications included in the orders are voidly responsible for the choice of products according to their intended use, current regulations and recommended guidelines.

PRICE:
Deliveries are invoiced according to the conditions in place at the date of dispatch. Prices are given without guarantees and they may be changed without notice subject to fluctuation in costs, VAT or other taxes, according to the prevailing economic conditions. Price increases will be announced one month prior to their application, and they apply to orders in hand and future orders.

PAYMENTS:
Terms of payments are confirmed when an account is opened, and are dependent on the terms of our credit insurance, and according to each country. We do not give discount for early payment.

In accordance with Article L441-8 of the Commercial Code, any delay in payment will give rise to the following penalties of interest, whether legal or not.

- An interest rate for delayed payment will be applicable equal to the European Central Bank rate, re-hiunched rate plus 10%.
- A one-off payment of 40 Euros will apply to cover collection costs.
- When the necessary costs exceed the amount of the one-off payment, additional compensation will apply, where justified.

In the case of late payment, a one-off payment may be required, replacing existing conditions. We will not accept any settlement with a lower value.

DELIVERY TIMES:
Deliveries dates are indicative only and we shall not be liable for any delay in delivery or in carrying out our obligations where the delay or failure to deliver is caused by risks of manufacturing or where the cause is beyond our control.

Delivery delay will not give rise to compensation or payment for goods or payments.

SHIPPING:
Orders are sent to our distributors. We do not deliver to sites. Charges and risks incurred from the transfer of merchandise depend on the Incoterm used for the commercial transaction. The carrier is using responsible for the shipment, but in the event of loss, damage, or other disputes, the customer must indicate this via the delivery driver’s paperwork (either electronically or in hard copy) AND follow up with written notification sent by recorded delivery within 24 hours. A copy of this letter must be addressed to us.

CLAIMS:
No claim will be allowed where the delay in reporting exceeds the periods of 10 days following receipt of the goods.

The wholesaler of the delivery cannot be rejected because of partial damages and shortages.

PROPERTY IN GOODS:
Non-member prices are agreed between the manufacturer and the wholesaler. The wholesaler retains the property of the seller until payment is made in full. The wholesaler may meet a payment deadline must result in the reclamation of these goods.

The buyer assumes the risks of delivery, damage or damages, regardless of the means of delivery, as described in "DELIVERY TIMES" and SHIPPING above, as well as liability for the damage they might cause.

WARRANTY AND RESPONSIBILITY:
Our finished products are warranted against any manufacturing defect for a period of 10 years, including electronic controls, excluding any electrical appliances (e.g., hand dryers, etc.) which have a 3-year warranty from the invoice date. This does not apply to products with an expiry date. Open parts have a one-year warranty. This warranty is limited to replacement or repair of any damaged merchandise. It does not apply to returned goods in transport from France but excludes the costs of packaging, handling and carriage or compensation whatever they are. We are not responsible for handling charges and the cost of returning products to our workshops.

Disastrous or major water damage as a result of manufacturing defects is covered by our product and/or manufacturer’s warranty.

Our warranty and responsibility does not include the following:
- Installation that does not comply with the specific technical specification or our recommended guidelines.
- Non-compliance with installation, user and maintenance guides.
- Other factors independent of our products’ quality, for instance, installation of driver’s products, cleaning products, the action of hard water, foreign bodies (e.g., gravel, sand, iron filings, scale, etc.), chemicals and electrochemical phenomenon.
- Lack of supervision, poor storage or maintenance, product modifications or actions by the customer, or a third party, without our authorisation using non-DELABIE components and/or consumable items.
- Products past their expiry date.
- Disposal and recycling of goods, parts and the product housing is the responsibility of the professional responsible for installation, and must be guaranteed by them. Warranty excludes joints, valves, washers and rubber seals. However, they would be supplied if the warranty application requirement applies. Any finishes other than chrome or nickel are also excluded from the warranty. In the event that the product has been discontinued or manufacturing methods have changed and replacements are unavailable, the buyer has the option to have the goods refunded. Replacement under warranty will not extend the duration of the original warranty.

LEGALITY OF DEFECTS:
The legality of defects applies in any event.

SPARE PARTS:
Defective parts and mechanisms that are essential to ensure the operation and safety of our products will be included in the warranty for the duration of the guarantees. They are listed at the back of our catalogues.

RETURNING:
Any returns must be authorised in advance by the Buyer to the Company and they are to be returned in good state (compliance with a goods receipt from the goods’ vendor, and all transportation costs for returned goods must be paid by the buyer. Goods must be returned to our factory with protective packaging. A 20% deduction for late return will be applied at the invoiced price. For deliveries older than one month, a 50% deduction will be made for checking, handling and repair and re-stocking fee will apply where appropriate.

When the returns are permitted in the following circumstances: discontinued products, specialty manufactured products, technical or aesthetic evolution of the product since the date of purchase, scratched or damaged products, products purchased more than one year prior to purchases with an expiry date. If delivered to DELABIE, these products outside the scope of our sales and are returned to the customer, and will be reimbursed to the customer. The schedule of standard deductions is as follows:

- returns within 1 month: refund of invoiced price, return between 1 and 6 months: deductible 15% return between 6 and 12 months: deductible 30% return after 12 months: no compensation.

In the event of non-payment, additional compensation will apply where appropriate.

If the return is not made under the conditions as above, a deduction will be made for checking, handling and repair and re-stocking fee will apply.

DELABIE S.A.
80130 Friville Escarbotin – FRANCE

CLEANING - MAINTENANCE:
Cleaning with slightly soapy water only, using a soft cloth or sponge, rinse and dry thoroughly. Do not use abrasive or chlorinated products (with a hydrochloric acid base), or oils.

PHOTOGRAPHS AND DRAWINGS:
All photos, charts, illustrations are for illustrative purposes only, with contractual obligation, and may be subject to change without notice.

We reserve the right to modify designs and dimensions without notice and without recourse. This applies to all references, dimensions, information contained in various documents, catalogues, installation guides, leaflets and images. These may be modified or discontinued at any time without notice.

INTELLECTUAL PROPERTY AND USE OF CONTENT:
The content described here is not intended to be exhaustive, and is subject to fluctuations in costs, VAT or other taxes, according to the prevailing economic conditions. In the case of late payment, a one-off payment may be required, replacing existing conditions. Price increases will be announced one month prior to their application, and they apply to orders in hand and future orders.
