

DELABIE “BEST BRAND OF THE YEAR 2020” FOR STAINLESS STEEL URINALS

DELABIE has once again be recognised by the PLUS X AWARDS

After winning a 2019/2020 PLUS X AWARD with the HYBRIMATIC FINO, DELABIE has received the Best Brand of the Year 2020 award for its stainless steel urinals.

The award

The PLUS X AWARD is the world's largest innovation award for technology, sports and lifestyle. It recognises brands for the quality and innovation of their products. The jury is made up of independent experts who represent different sectors of activity. The PLUS X AWARD's approach is unique. The PLUS X AWARDS are a reference for the best products and an undeniable sign of the quality of a brand.

The Best Brand of the Year is one of the highest distinctions awarded by the PLUS X AWARDS. This special distinction is only awarded to the highest performing products in the respective product category.

The products

DELABIE's stainless steel urinals are suitable for all types of public places: schools, airports, offices, service stations, restaurants, etc. They meet the various needs of public washrooms: design, ability to withstand intensive use and vandalism, hygiene, safety, minimal servicing and simple to maintain.

DELABIE's stainless steel urinals split down into 3 major families:

- Classic individual urinals: design-led and rimless, FINO and DELTA urinals are available with recessed or exposed water inlets;
- The individual hybrid urinal: with its hybrid rinsing system, the HYBRIMATIC FINO is a serious, ecological alternative to water-free urinals. Its unique detection system and automatic rinsing allow maximum water savings;
- Trough urinals: recessed or floor-standing urinals as well as wall-hung trough urinals can be used by several users at the same time.

In addition to its bacteriostatic properties, stainless steel is easy to clean thanks to a product design which reduces niches where bacteria can develop. It's a must for hygiene. Stainless steel is also a durable and unbreakable. 100% recyclable, HYBRIMATIC FINO urinal contributes to sustainable development and protecting the environment.
