New Be-Line® drop-down support rail

Drop-down support rail
metallised anthracite

Be-Line® shower seat

Ref. 511960W

The DELABIE Group, expert in accessibility for public places, has extended its Be-Line® design range with its new drop-down and removable support rail. Combining aesthetics and comfort, it offers safety and well-being to users - senior citizens, people with reduced mobility or disabled people. Design and well-being

DELABIE's Be-Line® range combines aesthetics and comfort.

The innovative design of the Be-Line® grab bars and shower seats eliminates the medical and sometimes stigmatising aspects of accessible washrooms, leaving only a feeling of well-being, free from any complex, both at home and in the wider environment.

Drop-down support rails are typically stigmatising. Discreet, the Be-Line® drop-down support rail has clean lines which naturally integrate into its environment.

The Be-Line® range transcends generations and is suitable for every life stage, regardless of age or level of independence, which makes the shared use of sanitary spaces more agreeable for everyone.

Comfort for all

The Be-Line® drop-down support rail subscribes to the school of design for all. It is suitable for all users. In the lowered position, with its rounded profile and ergonomic flat front face that prevents rotation, it is a valuable aid for senior citizens and people with reduced mobility.

Taking up minimal space in the raised position, it is ideal for shared use of the shower or toilets.

The Be-Line® drop-down support rail is also removable. It can be replaced by a cover plate.

This reduces the number of drop-down rails in a facility, allowing installation only when required. For example, hotels or hospitals providing short-term accommodation for people with reduced mobility.

Maximum safety

As with all of DELABIE's Accessibility products, the Be-Line® support rail benefits from the Safety Pack: 10-year warranty, CE mark and tested to over 200kg. In public and commercial places, the user weight is unknown. The products installed must therefore be able to support any user.

Available in two aluminium finishes - matte white or metallised anthracite powder coating - Be-Line® ensures a good visual contrast between the colour of the support rails and the wall.

Be-Line® support rails match all interior decoration styles.
