

## INNOVATIVE INSTALLATION WITH DELABIE, THINKING INSIDE THE BOX

Ref.: 763BOX-763000 TEMPOFLUX 3 direct flush valve

Ref.: 430PBOX-430036 TEMPOMATIC 4 urinal valve

### The perfect fit

DELABIE's new recessing housing has been designed with a unique system which connects easily to DELABIE's sanitary fittings (TEMPOMIX 3 for washbasins and showers, TEMPOMATIC 4 and TEMPOFLUX for urinals, and TEMPOMATIC dual control and TEMPOFLUX 3 direct flush systems).

Gone are the days of fitting the housing incorrectly, its very design guarantees that it is easy to install in any circumstance.

### The smart box

Suitable for both refurbishment and new-build, DELABIE's new recessing housing simplifies the installation and maintenance of shower, washbasin, WC and urinal controls.

Indeed, the sensitive and hydraulic elements (filters, solenoid valves or cartridges and stopcock) connect from the outside, and the housing has been designed to allow access for maintenance from the front, simply by removing the actuator plate.

### DELABIE, designing the everyday

DELABIE pays particular attention to designing and producing practical and design-led products which are robust and efficient, as well as ergonomic and hygienic.

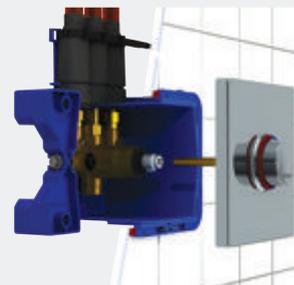

As a result, there is a wide choice of shapes and finishes for the actuator plates, made from noble materials chosen for their well-known design qualities (glass, stainless steel, metal).

## CONCENTRED INNOVATION

DELABIE's recessing housings are equipped with a collar with an integrated waterproof seal which clips onto the housing, guaranteeing the seal's integrity without the need for silicone.

The optimised location of the collar allows the housing to be cut to the correct length, according to the depth of the wall, while ensuring the seal's integrity. Thick or thin, the housing adapts to any depth of wall from 10 to 120mm.

**Fixed by the sides, from the front or from the rear, the housing can be installed on metal structures, load-bearing walls or IPS panels, and can adapt according to the installation type.**
