

PAINT IT BLACK WITH THE HIGHFLOW HAND DRYER

Matte black finish

Matte black HIGHFLOW air pulse hand dryer

HIGHFLOW is available in white, bright polished, and polished satin finish

SPEEDJET 2 in matte black. Ref.: 510624B

Ref. 510622BK

The DELABIE Group, expert in sanitary equipment for public and commercial places, has extended its BLACK MAGIC range with its new HIGHFLOW air pulse hand dryer in a matte black finish. This compact and high speed model is specifically designed for intensive use.

Design

Partnered with DELABIE's Black BINOPTIC mixers and taps, this hand dryer in a matte black finish creates a completely black decorative style that is the ultimate in design.

Available in four finishes – matte black, white, bright polished and polished satin stainless steel – it adapts perfectly to different styles of interior decoration.

Efficiency and comfort

Good hand hygiene requires effective drying. The new DELABIE HIGHFLOW hand dryer is high speed. The central nozzle directs the air onto the hands at more than 230km/hour. Hands are dried in only 10 – 12 seconds. For increased efficiency and improved ergonomics, hands are detected automatically and the nozzles is lit. Users can see immediately where to place their hands. Using intelligent technology, HIGHFLOW stops automatically when hands are removed. Comfort is increased by the possibility of choosing, during installation, if the hand dryer delivers hot or cold air.

Suitable for intensive use

As with all DELABIE's products, the HIGHFLOW hand dryer is put through performance tests to ensure that it will withstand intensive use in exposed environments. It is specifically designed for intensive use in all types of public environments and in highly frequented places. The entire range of DELABIE's hand dryers has a 3-year warranty.

High resistance to vandalism

Vandalism is a major issue in highly frequented places. The HIGHFLOW hand dryer is able to withstand high levels of vandalism because of its robust stainless steel construction and its anti-blocking system. Continuous use for more than 60 seconds causes the hand dryer to shut down automatically.

To fight against theft, a major issue in public places, this new hand dryer is equipped with anti-theft screws.

PRODUCT BRIEF / PAINT IT BLACK WITH THE HIGHFLOW HAND DRYER

The DELABIE Group, expert in sanitary equipment for public and commercial places, has extended its BLACK MAGIC range with its new HIGHFLOW air pulse hand dryer in a matte black finish. The ideal partner for DELABIE's Black BINOPTIC mixers and taps, this new hand dryer contributes to a completely black decorative style. This compact, high speed model provides effective drying in only 10 - 12 seconds. Made from stainless steel, with an anti-blocking system and anti-theft screws, this hand dryer is ideal for intensive use in commercial washrooms.
