

2021 PLUS X AWARD: TEMPOMIX 3 WALL-MOUNTED MIXER VOTED BEST PRODUCT OF 2021

GREEN CONSUMPTION

The TEMPOMIX 3 wall-mounted time flow basin mixer (references 794050 & 794055) has won the *Best Product of 2021* award in the category for mixers and taps at the PLUS X AWARD.

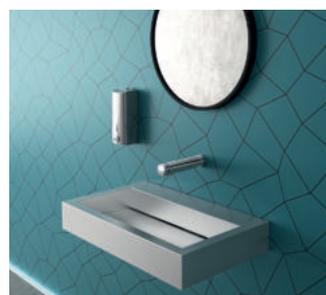

The award

The PLUS X AWARD is the world's largest innovation award for technology, sports and lifestyle. It recognises brands for the quality and innovation of their products. The jury, made up of independent experts, represents different sectors of activity. The PLUS X AWARD's approach is unique. The PLUS X AWARDS are a reference for the best products and an undeniable sign of the quality of a brand.

The *Product of the Year* award highlights the product which receives the most quality labels in its category compared to the competition. This is an additional distinction for the product concerned and another means of recognising its quality, ease of use and functionality.

The nominee

DELABIE offers innovation with its wall-mounted, single control TEMPOMIX 3 mixer. It presents the possibility of installing a wall-mounted mixer without a wall plate or recessing housing. The installation configurations are numerous and much more aesthetically-pleasing: between solid walls and plasterboard, between partition walls, or even in a solid wall (only one recessing channel required). Maintenance is also easy, with direct access from the front of the mixer.

With a single control, the user can operate the mixer and select the temperature in a single movement. The soft-touch push-button makes it an ergonomic product that can be used by anyone, regardless of their level of independence.

Unlike classic mixers and taps, it closes automatically, preventing contamination after soaping and prevents the spread of germs by hand. TEMPOMIX 3 is also equipped with a hygienic flow straightener made from scale-resistant materials which prevent the retention of water and impurities. With a 7-second timed flow, and a flow rate of 3 litres/minute, it delivers water savings of up to 85%.

Its sleek design ensures that TEMPOMIX 3 fits perfectly into all types of public places while meeting the challenges of vandalism, or withstanding the intensive use that may be found there.
