

**SPEEDJET 2:
AN EFFECTIVE AND HYGIENIC HAND DRYER**

High-speed drying and maximum hygiene

Design: available in 2 finishes

High-speed drying

Réf. 510623W

In the wake of SPEEDJET and HIGHFLOW, DELABIE, the expert in washrooms for public and commercial places, has reinforced its range of hand dryers with the new SPEEDJET 2. This design-led, high-speed model is the first hand dryer to integrate a unique system that removes the need for a drip tray and prevents water reaching the wall or floor.

Unique evaporation system

SPEEDJET 2 is the first hand dryer to integrate a unique system that removes the need for a drip tray and prevents water reaching the wall or floor. Any residual water on the hands is removed by an innovative process of evaporation and sterilisation. Maintenance and cleaning are, therefore, made easier.

Effective and comfortable

The new DELABIE SPEEDJET 2 hand dryer is high-speed. Pulsed air dries hands in just 10 - 12 seconds. Comfort is increased by the warm air delivered while the hands are dried.

Maximum hygiene

SPEEDJET 2 is fitted with an HEPA filter which retains 99.99% of the bacteria found in the air. Made from anti-bacterial ABS, total hygiene is guaranteed. Electronics enhance its efficiency. Hands are detected automatically, ensuring no manual contact with the hand dryer, thus avoiding any manual contamination.

Suitable for intensive use

As with all DELABIE's products, the SPEEDJET 2 has been subjected to performance tests to withstand intensive use in public and commercial buildings. Continuous use for more than 30 seconds results in the hand dryer stopping automatically. Therefore, it cannot be blocked in the operating mode. As with all the other products in the hand dryer range, it is guaranteed for 3 years.

Available in two finishes - metallised anthracite and matt white - this new hand dryer fits perfectly into its environment.
