

2021 iF DESIGN AWARD: THE AWARD-WINNING BE-LINE® LIFT-UP SHOWER SEAT

LIFE IS SWEET!

DELABIE's Be-Line® lift-up shower seat with leg (references 511930C and 511930W) has won a 2021 iF DESIGN AWARD in the *Product design - bathroom* category.

The award

For 67 years, the iF DESIGN AWARD has recognised exceptional design quality. The iF awards are associated with outstanding design services worldwide and are considered one of the most prestigious competitions worldwide.

This distinction is awarded to the best candidates in the following disciplines: product design, packaging design, communication design, architecture and interior design, professional concept, service design, user experience (UX) and user interface (UI). All the winning candidates can be found on <http://www.ifworlddesignguide.com>.

The product

The Be-Line® range combines aesthetics and comfort. With its clean lines, this shower seat naturally integrates into its environment. It eliminates the medical and sometimes stigmatising aspects of accessible washrooms.

The Be-Line® shower seat subscribes to the school of design for all, and is suitable for all users, regardless of their age or degree of independence. With its large width and depth, it represents a valuable support or simply additional comfort for the user. Lift-up and removable, it is ideally suited to the shared use of washrooms and showers. A shower shelf can be substituted for the seat to limit the number of shower seats in a building, allowing their installation only if necessary.

As with all DELABIE's Accessibility products, the Be-Line® shower seat benefits from the Safety Pack: 10-year warranty, CE marked and tested to over 200kg. In public and commercial places the user weight is unknown. The products installed must therefore be able to support any user.

Available in 2 finishes - metallised anthracite or matte white - the Be-Line® shower seat matches all interior decoration styles.

Installation example,
Be-Line® lift-up shower seat with leg,
matte white
Ref. 511930W
