## ACS

**Certificate of Sanitary Conformity.**  
All DELABIE products conform to the DWD\* directive, the modified directive of 29/05/1997, the directive of 25/06/2020 and the French Ministry of Health circular DGS/SD7A2002 no. 571 dated 25/11/2002.

\* EU Drinking Water Directive.

NEW

## DELABIE's commitment!

### DELABIE PRODUCTS HAVE A 30-YEAR WARRANTY!

DELABIE products are designed to last for as long as possible.

The quality of our products is such that we have no hesitation in **guaranteeing our products for 30 years\***.

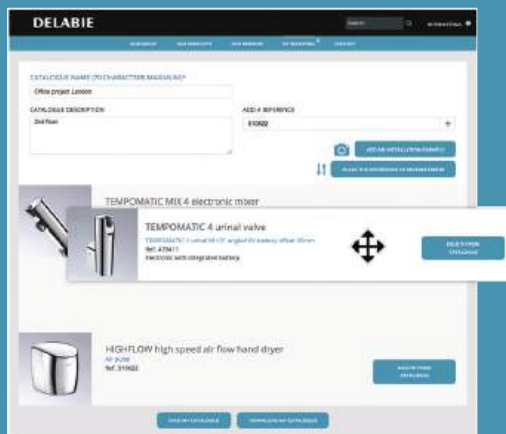

### DELABIE PRODUCTS CAN BE REPAIRED FOR 50 YEARS!

We will keep spare parts for our products for 50 years\* to facilitate any necessary repairs.

DELABIE is helping to minimise your costs and prolong product lifespans, thereby reducing your ecological footprint.

\* See Terms and Conditions of Sales

## DELABIE.COM AVAILABLE FEATURES

Create your own catalogue using **your own product selection**.

You can **personalise** it by giving it a project name and description, by choosing the order for the products to appear and by adding lifestyle images.

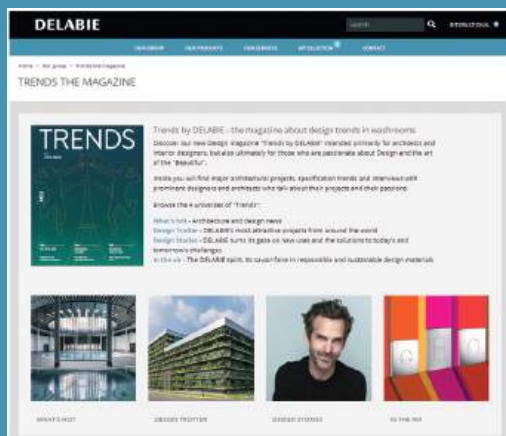

This catalogue will then be available in **Word, PDF and Excel** formats.

## BIM: DELABIE'S CORE PRODUCTS ARE NOW AVAILABLE

To meet the requirements of BIM technology, DELABIE has modelled its core products.

**BIM files** can be downloaded via the relevant product data sheet or via datashare.

## TRENDS THE MAGAZINE: THE DESIGN TRENDS TAB

Browse the "Trends by DELABIE" magazine intended for those who are passionate about Design and the art of the "Beautiful".

Discover the 4 universes of "Trends" with major international projects, specification trends as well as interviews with prominent designers and architects who talk about their projects and their passions.

## KOMPACT combi

Wall-mounted installation with access panels

- Combination unit: washbasin and WC pan (hung or floor-standing) with recessed toilet roll holder.
- Wall-mounted installation with 3 access panels, 2 on the sides and 1 on the top, with theft prevention TORX security screws.
- Bacteriostatic 304 stainless steel. Stainless steel unit thickness: 2mm.
- Rounded corners and edges for improved safety.
- Smooth surface for easy cleaning.
- Suitable for prisons, police stations, etc.
- WC pan is completely welded to washbasin, no screws: makes cleaning easier and prevents concealment of objects.
- Available with WC pan on the right, left or central to the unit.
- Washbasin equipped with time flow tap: stainless steel tamperproof push-button and anti-blocking system, 7-second time flow, M $\frac{1}{2}$ ".
- Available with 2 buttons: cold water/mixed water.
- WC equipped with time flow flush valve, 7-second time flow, M $\frac{3}{4}$ ".
- Water inlet: washbasin M $\frac{1}{2}$ ", WC M $\frac{3}{4}$ ".
- Recessed horizontal water outlet: Ø 100mm.
- Supplied with washbasin trap.
- Easy to install: only one water outlet for both washbasin and WC, water inlet and outlet already connected.
- Weight: 36kg. 30-year warranty.

DELTA HD urinal  
Rimless

- Wall-hung individual rimless urinal.
- Compatible with all standard frame systems on the market.
- Bacteriostatic 304 stainless steel. Stainless steel thickness: 1.2mm.
- Rear (recessed) water inlet.
- Vandal-resistant: recessed waste outlet, concealed trap, and reinforced mounting frame.
- Quick and easy to install from the front thanks to a stainless steel mounting frame.
- Supplied with 1½" P trap, fixing elements and theft prevention TORX security screws.
- CE marked. Complies with European standard EN 13407 for 2L flush.
- Weight: 7.5kg.
- 30-year warranty.

For valves, see recommendations for individual urinals on page 59.

: dispatch within 4 weeks    : stock item

DELTA TC urinal  
Rimless

- Wall-hung individual rimless urinal, cross wall installation for service ducts.
- Bacteriostatic 304 stainless steel. Stainless steel thickness: 1.2mm.
- Rear (recessed) water inlet.
- Vandal-resistant: recessed waste outlet, concealed trap.
- 200mm threaded rod can be cut to size (other lengths available on request).
- Supplied with fixing elements.
- CE marked. Complies with European standard EN 13407 for 2L flush.
- Weight: 8kg.
- 30-year warranty.

For urinal valves see the DELABIE catalogue "Water Controls for Public and Commercial Places" (DOC 609INT).

## L urinal

Recessed - 1 to 3 services

- Trough urinal for recessing in the floor.
- Bacteriostatic 304 stainless steel. Stainless steel thickness: 1.2mm.
- Rear water inlet.
- Supplied with 1 stainless steel rinser and 1 flexible hose for the 600mm model; 2 stainless steel rinsers and 2 flexible hoses for the 1,200mm model; 3 stainless steel rinsers and 3 flexible hoses for the 1,800mm model.
- Water saving: optimal rinsing with 0.1 L/Sec. per service i.e. 0.3L per use.
- Central drainage.
- Waste outlet 1½". Supplied with waste and integrated trap (ref. 785000).
- Weight: 16.8kg for the 600mm model; 25.4kg for the 1,200mm model; 34kg for the 1,800mm model.
- Possible to add one or more bacteriostatic 304 stainless steel dividers. Fix directly onto the urinal in the desired location.
- 30-year warranty.

For valves, see recommendations for trough urinals on page 59.

## THE DAYS OF SMELLY LATRINES AND REPULSIVE SANITARY FACILITIES ARE GONE!

Users' needs have changed. Even if cleanliness is fundamental, comfort and aesthetics also play an important role in upholding the facility manager's or owner's image.

Stainless steel is a prestigious, high quality material, shown at its best in the design of DELABIE's sanitary ware. A toilet, hand washbasin or urinal made from DELABIE's stainless steel have become key architectural elements for sanitary facilities.

### THE FIGHT AGAINST VOLUNTARY OR INVOLUNTARY VANDALISM

Stainless steel is a highly resistant and durable material.

DELABIE's stainless steel sanitary ware will withstand heavy loads, abrasions, scratches and chemical products.

In areas requiring secure installations (e.g. prisons), cross wall options are ideal since the components and fixing elements cannot be accessed by the user.

## ENVIRONMENTALLY FRIENDLY

Stainless steel is 100% recyclable, contributing to sustainable development and protecting the environment. DELABIE's stainless steel sanitary ware contains 60% recycled stainless steel.

DELABIE's stainless steel sanitary ware requires less energy to manufacture due to the use of advanced technologies (cold pressing, TIG and laser welding).

Lighter than ceramic, their transportation consumes fewer resources.

## STAINLESS STEEL, ESSENTIAL FOR HYGIENE

The aseptic qualities of stainless steel have been regularly proven. Stainless steel is bacteriostatic: bacterial retention after cleaning is extremely low, up to 20 times less than for other materials such as glass or plastic.

A thin, invisible protective layer forms continuously when in contact with air or water. If the surface is damaged mechanically, the stainless steel is protected against corrosion.

Particular attention has been paid to designing sanitary ware with limited assembly and reduced numbers of seams to avoid dirt deposits and bacterial niches, and therefore to facilitate cleaning.

## SANITARY APPLIANCES CERTIFICATION

### What is the CE mark?

The CE mark is a mandatory European marking for all products subject to one or more European Directives. It indicates that the products comply with the essential requirements regarding safety, public health and consumer protection. It gives the products concerned the right of free movement throughout the European Union.

In order to mark its products with the CE mark, a manufacturer must carry out, or have carried out on its behalf, checks and tests which ensure that the product complies with the essential requirements set out in the relevant Directives.

### How do you recognise a CE marked product?

The CE mark is normally displayed on the product or, if not, on the packaging or accompanying documents.

The manufacturer must draw up a CE declaration of conformity (declaration of performance). In the document the manufacturer states that the product complies with the "essential health and safety requirements" that apply to the product and for which the manufacturer assumes responsibility.

All the CE declarations of conformity (declarations of performance) are available online at [www.delabie.com](http://www.delabie.com).

### Which sanitary appliances carry the CE mark?

European Standard	Product family
EN 14688	Washbasins
EN 14296	Communal wash troughs and surgical scrub-up troughs
EN 997	WC pans and close coupled WCs with an integral trap
EN 13407	Wall-hung urinals
EN 14527	Shower trays

### What does the CE mark provide for sanitary appliances?

The CE mark guarantees the performance and safety of sanitary appliances for normal use, in particular in terms of hygiene, efficiency and reliability.

The main elements tested, depending on the type of sanitary appliance, are:

- resistance to loads (150kg for washbasins, 400kg for WCs, 100kg for urinals);
- the evacuation of water with no stagnation (washbasins, shower trays);
- resistance to water temperature variations;
- resistance to chemical products and cleaning products (acetic acid, sodium hydroxide, ethanol, sodium hypochlorite, methylene blue, sodium chloride);
- resistance to scratching and abrasion;
- ease of cleaning;
- optimal pan rinsing (WCs and urinals);
- the effective evacuation of residues for WCs (tests with toilet paper and plastic balls);
- no splashing, or splashing outside the toilet bowl (WCs, urinals).

## MAINTENANCE ADVICE

Stainless steel is easy to clean and is very durable over the long term.

When stainless steel comes into contact with certain chemical substances or with inappropriate cleaning agents, there is a possible risk of staining or discolouration.

In order to guarantee the stainless steel's properties against corrosion, it is essential to always keep the surface clean.

For everyday cleaning, we recommend following the instructions below:

- use mild soapy water;
- rinse thoroughly with clean water;
- dry with a soft and clean cloth.

Never use abrasive products, scouring powder, bleaching products such as bleach or any other chlorine, acid or alcohol-based products. If the product comes into contact with any of these, rinse thoroughly with clean water.

## RECOMMENDED INSTALLATION HEIGHTS (mm)

	Height	Standard installation height	Installation height for PRM*	Installation height for children
Hand washbasins*		800	850	X
Washbasins		850 to 900	800 to 850	550 to 700
Wall-hung WC pans		400 to 430	450 to 500	350 to 390
Urinals		650 to 710	Install urinals at different heights	400 to 500

\* **Hand washbasins:** washbasins less than 530mm in width, designed only for hand washing (source: European standard EN 14688).

\* **PRM:** People with reduced mobility = People that experience trouble moving around, either temporarily or permanently.  
For example: the sensory impaired and people suffering from a mental illness, people in wheelchairs, people missing limbs, people of short stature, the elderly, pregnant women, people carrying heavy luggage and people with children (including children in pushchairs).

For more information on the installation of sanitary areas for people with reduced mobility please consult the Space guide found in the DELABIE "Accessibility and Accessories" catalogue (DOC 950INT).

**The general terms and conditions are valid for all customers.**

### ORDERS AND QUOTATIONS:

These will be processed in order of receipt.

We do not accept open orders or orders for call-off.

All orders sent imply acceptance of our general terms and conditions of sale and customers waive any claims that may arise from clauses in their own documentation which may differ.

The customer agrees to these terms from the moment that we receive the order, which cannot be cancelled. Orders are accepted without obligation to deliver the order in full in one delivery.

Our commercial representatives are not authorised to agree additional terms verbally, or to provide verbal guarantees beyond those provided in the written contract.

In the event of default or delayed payment, the Company will be entitled to suspend deliveries or cancel existing orders without any claim for damages from the customer.

In the event of a change in circumstances of the buyer, we reserve the right to cancel existing orders or to demand payment guarantees.

Our quotes do not amount to specifications; specifiers and professional installers are solely responsible for the choice of products according to their intended use, current regulations and recommended guidelines.

### PRICE:

Deliveries are invoiced according to the conditions in place at the date of despatch. Prices are given without guarantee and they may be changed without notice subject to fluctuations in costs, VAT or other taxes, according to the prevailing economic conditions. Price increases will be announced one month prior to their application, and they apply to quotes and orders in hand.

### PAYMENTS:

Terms of payments are confirmed when an account is opened, and are dependent on the terms of our credit insurance, and according to each country.

We do not give discount for early payment.

In accordance with Article L441-6 of the Commercial Code, any delay in payment will give rise to the following from the first day of delay, regardless of their status with the supplier:

- An interest rate for delayed payment will be applied, equal to the European Central Bank refinancing rate plus 10% (French Law of Modernization of the Economy - LME – No. 2008-776 of 4th August 2008);
- A one-off payment of 40 Euros will apply to cover expenses (European Directive 2011/7 of 16th February 2011, Law 2012-387 of 22nd March 2012, and Decree 2012-1115 of 2nd October, 2012);
- When the recovery costs exceed the amount of the one-off payment, additional compensation will apply where justified.

In the case of late payment, a one-off payment may be required, replacing existing conditions. We will not accept any set off, only our assets have a legal value.

### DELIVERY TIMES:

Despatch dates are indicative only and we shall not be liable for any delay or failure in carrying out our obligations where the delay or failure to deliver is caused by risks of manufacturing or where the cause is beyond our control. Delivery delay will not give rise to compensation payment or goods rejection.

### SHIPPING:

Orders are sent to our distributors. We do not deliver to site. Charges and risks incurred from the transfer of merchandise depend on the Incoterm used for the commercial transaction. The carrier is solely responsible for their delivery, and in the event of delay, missing items, damage or other dispute, the customer must indicate this via the delivery driver's paperwork (either electronically or in hard copy) AND follow up with written notification sent by recorded delivery within 72 hours. A copy of this letter must be addressed to us.

### CLAIMS:

No claim will be allowed where the delay in reporting exceeds 7 days following receipt of the goods.

The whole of the delivery cannot be rejected because of partial damages and shortages.

### PROPERTY IN GOODS:

Notwithstanding any agreed terms of sale, the goods shall remain the property of the seller until payment is made in full. The failure to meet a payment deadline may result in the reclamation of these goods.

The buyer assumes the risks of loss or damage, regardless of the means of delivery, as described in 'DELIVERY TIMES' and 'SHIPPING' above, as well as liability for the damage they might cause.

### WARRANTY AND RESPONSIBILITY:

Our finished goods delivered after 1<sup>st</sup> January 2024 are warrantied against any manufacturing defect for a period of 30 years, including electronic controls, excluding other electrical accessories (e.g., hand dryers, etc.) which have a 3-year warranty from the invoice date. This does not apply to products with an expiry date. Spare parts have a one-year warranty.

This warranty is limited to replacement or repair of defective components as determined by our workshops in France but excludes the costs of spoilage, handling and carriage or compensation whatever they are. We are not responsible for handling charges and the cost of returning products to our workshops.

Disasters or major water damage as a result of manufacturing defects are covered by our product and/or public liability insurance.

To invoke the warranty, the customer must immediately notify us in writing of the defects attributed to the product, specifying the conditions of use in place at the time of their discovery and provide us with all relevant material elements demonstrating the existence and nature of the defect.

Our warranty and responsibility does not include the following:

- installation that does not comply with the technical specification or current

recommended guidelines;

- worn parts;

- non-compliance with installation, user and maintenance guides;

- other factors independent of our products' quality, for example: detergents or abrasive cleaning products, the action of hard water, foreign bodies (e.g., gravel, sand, iron filings, scale, etc.), chemical and electrolytic phenomenon;

- lack of supervision, poor storage or poor maintenance;

- product modifications or actions by the customer, or a third party, without our authorisation using non-DELABIE components and/or consumable items.

- errors, carelessness, negligence or incorrect information from the client;

- products past their expiry date.

The water-tightness of connections, joints and the product housing is the responsibility of the professional responsible for installation, and must be guaranteed by them. Warranty excludes joints, valves, washers and rubber seals. However, they would be supplied if the warranty application requires them. Any finishes other than chrome or nickel are also excluded from the warranty.

In the event that the product has been discontinued or manufacturing methods have changed and replacements are not available, similar alternative products will be offered. Replacement under warranty will not extend the duration of the original warranty.

The supplier's civil liability is excluded in all cases listed above. It is limited to compliance with the specifications and can only be initiated if the Customer has previously demonstrated the existence and extent of damage, a fault and the causal link between this fault and the damage.

It is limited to direct material damage, excluding all immaterial or indirect damage such as loss of operation, profit, opportunity, commercial damage, loss of earnings.

The supplier's liability, for all causes except bodily injury and gross negligence, is limited to €750,000 per order or contract.

### MEDICAL DEVICES:

DELABIE is obliged to deliver Products that comply with the specifications and quality standards as per REGULATION (EU) 2017/745 of 5 April 2017 on medical devices.

All documentation that is necessary for a reseller to sell the goods and to fulfill the obligations set out to chapter II Art. 14 of 2017/745 MDR (general obligations of Resellers) can be provided by DELABIE upon request (i.e. EU declaration of conformity).

As a reseller, the customer shall maintain a complete and current listing of the locations of all Products in Reseller's inventory and the names of its customers who have purchased Products in the Reseller's inventory and the names of its customers who have purchased products from the Reseller, together with the dates of such purchases and Product lot numbers for at least ten years.

The commercial documentation as well as the ancillary documents, such as the instructions for use, the regulatory labelling and the technical

information, may not be changed or modified by the Reseller. DELABIE cannot be held responsible for any change in the content of the documents and labelling if this is not the case.

The reseller undertakes not to make any changes to the products, either to the device itself or to its packaging or labelling.

As part of its quality system, the Reseller will ensure that, as long as the products are under its responsibility, the storage or transport conditions comply with the conditions defined by DELABIE. This vigilance will focus in particular on expiry dates, with the removal of out-of-date products from the shelves, as well as appropriate storage facilities in which the conditions are those required by the characteristics of the products and best adapted to ensure their proper preservation.

As a reseller, the customer shall within five working days from the date of receipt notify DELABIE or National Authorities (see link below) with any written complaint regarding a Product received from its customers. DELABIE shall provide the Reseller with a preliminary answer within two working days from the date of receipt of the Reseller's notice.

[https://health.ec.europa.eu/medical-devices-sector/new-regulations/contacts\\_en](https://health.ec.europa.eu/medical-devices-sector/new-regulations/contacts_en)  
DELABIE, as the manufacturer of the medical devices is responsible for fulfilling the duties according to chapter VII section 1 and 2 of 2017/745 MDR (post-market surveillance, vigilance).

As a reseller, the customer must support DELABIE in the event of a recall, and shall inform its customers in such a way as to cause the least disruption of the sales of the Products and to preserve the goodwill and reputation attached to the Products and to the names of DELABIE and the Reseller.

DELABIE shall pay in full all costs of retrieval, recall and replacement of the Products (including if such recall or replacement is required by DELABIE).

DELABIE shall maintain adequate records of manufactured Products by batch and lot, including test and laboratory observation data and will provide copies of such records to the Reseller, as may be reasonably necessary in connection with any recall.

#### **SPARE PARTS:**

Spare parts and mechanisms that are essential to ensure the correct operation of our products will be held in stock for 50 years from the date of purchase. They are listed at the back of our catalogues.

#### **RETURNS:**

Goods may not be returned to us for credit without our prior written approval obtained by the buyer from the Company and they are received in a good state (determined by our goods inwards department). All transportation costs for returned goods must be paid by the buyer. Goods must be returned to our factory\* with good protective packaging.

Deliveries less than a month old will be refunded at the invoiced price. For deliveries older than one month, a deduction will be made for checking, handling and administration costs.

A repair and re-stocking fee will apply where appropriate. Product returns are not permitted in the following circumstances: discontinued products, specially manufactured products, technical or aesthetic evolution of the product since the date of purchase, scratched or damaged products, products purchased more than one year previously, products with an expiry date. If sent to DELABIE, those products outside the scope of returns will be immediately destroyed/recycled, and will not be returned to the customer.

The schedule of standard deductions is as follows:

- return less than 1 month: refund at invoiced price
- return between 1 and 3 months: deduction of 15%
- return between 3 months and 1 year: deduction of 30%
- return after 1 year: no refund possible.
- return without prior agreement: additional deduction of 5% of the value of the goods with a minimum value of €50 excl. VAT.

\* DELABIE S.A.S.

18, rue du Maréchal Foch

80130 Friville Escarbotin – FRANCE

#### **CLEANING - MAINTENANCE:**

Clean with slightly soapy water only, using a soft cloth or sponge, rinse and dry thoroughly. Do not use abrasive or chlorine-based products (with a hydrochloric acid base), or dyes.

#### **PHOTOGRAPHS AND DRAWINGS:**

All photos, drawings or illustrations are for illustrative purposes only, without contractual obligation, and may be subject to change without notice.

We reserve the right to modify designs and dimensions without notice and without recourse. This applies to all references, dimensions, information contained in various documents, catalogues, installation guides, price lists and websites, which can be modified or discontinued at any time without notice.

#### **INTELLECTUAL PROPERTY AND USE OF CONTENT:**

The content (including but not limited to the information, text, graphics, data, images, photos, visuals, videos and soundtrack, and the format of all these elements and our catalogues, websites, etc.) are protected under copyright and/or other intellectual property. The contents are the sole property of their respective editors. Any copying, reproduction, use, adaptation, alteration, modification, translation, dissemination, complete or partial, of content, whether they belong to DELABIE or a third party which has granted the rights to DELABIE, by any means whatsoever, is illegal except for the limiting rights that are granted below, and/or private copying for the exclusive use of the copier. The content presented in our communication and business tools may be subject to change without notice and are provided without warranty of any kind, express or implied, and cannot give rise to any right to compensation. Protected content may be specifically identified by the following copyright notices: © or "All rights reserved".

The names and logos appearing in our catalogues and websites are registered trademarks. These distinctive marks are the exclusive property of DELABIE or third parties who have granted the rights to DELABIE. Any use, complete or partial reproduction, or imitation of these marks is prohibited without prior express consent of DELABIE.

Alteration and modification of the contents or their use for any purpose other than that authorised, constitute an infringement of DELABIE's, or a third party's, property rights. With the following limitations, DELABIE grants you the right to download and distribute the content:

- where the download function exists
  - for non-commercial purposes
  - in good faith
  - for maintaining the proprietary notices intact, and for the publication or posting of existing content online, if such information is stated.
- This right should in no way be interpreted as a trademark or copyright license for the aforementioned content.

#### **PERSONAL DATA PROTECTION:**

In line with the General Data Protection Regulation (GDPR), DELABIE is doing everything necessary to limit to a bare minimum the collection of personal data, and its conservation and ensure its protection.

DELABIE only uses this data for its own use for purposes of information and commercialisation of its products. It is not, under any circumstances, given to third parties.

The right of access, rectification, removal and opposition to the processing in addition to the limitation and transferability of your data is possible on request to our Data Protection Officer (DPO) at DELABIE via email ([dpo@delabie.fr](mailto:dpo@delabie.fr)) or recorded delivery with a photocopy of a photo ID to the following address: DELABIE, 18 rue du Maréchal Foch, 80130 Friville Escarbotin – FRANCE.

To improve our services and for training purposes, calls to DELABIE may be recorded. These recordings will not be retained, and will be systematically deleted within a maximum period of 48 hours.

#### **EXCLUSIVE TERRITORIES:**

In most countries throughout the world, our company has entered into exclusive agreements with organisations to import and distribute our products. Within this framework, our clients cannot sell our products outside their national borders without an express prior agreement on our part.

#### **JURISDICTION:**

Acceptance of an order delivered from France settles the contract under the French law. All disputes arising from the present contract will be settled definitively by the Court located in the area of our domicile, even in the event of multiple defendants, regardless of the delivery location or stipulated payment. All clauses to the contrary will be considered null by the mere fact of having dealt with our company.
